Lake McClure Night Bonanza!!

FRESNO BASS CLUB MEMBERS,

Well, Summer is upon us and that usually means hot weather and six-hour daytime tournaments, but for FBC members it means night-time bass fishing.

This year's weather really hasn't been the typical valley summer heat with day-time temps above 100 and night-time temperatures in the 80's. Instead, we have had mild summer days with the occasional 100-degree days and very high-water levels.

This month's tournament weather was in the mid to high 80's when we arrived at the ramp and dropped into the mid to low 60's as the night progressed. It actually got cold, and some anglers chose to put on their raingear to keep warm. I was glad I brought a couple sweatshirts otherwise I would not have made it through the night.

Fishing lake McClure at night has always been fun because you can usually catch numbers of fish and size all night long. Well, this year was much different, like most lakes this year McClure is in a bit of a funk and it's hard to just catch fish period!

The club members who pre-fished said that catching fish was tough enough while it was still light out, but once it got dark, the bite was non-existent. The word spread like wildfire and most of us were dreading the long dual weigh-in tournament. It was going to be a long night, but if there is an upside, at least it wasn't hot.

The night tournaments at McClure have generally been won by throwing some sort of reaction bait, like a spinnerbait, crankbait or topwater. This year it was won with the same type of tactics, but you had to stick to your guns and hope for the best.

The winner for the 2023 McClure night tournament was none other than Mr. Spinnerbait himself, Tim Turner. Tim concentrated his efforts on the main lake from Barrett South to McClure Point. Tim caught some small fish early on a small swimbait but switched up to a white spinnerbait and went to work. Tim had his limit before it got dark and proceeded to catch approximately 11 keepers before the first weigh-in.

Tim brought in a limit the first half weighing 9.83 anchored by the second big fish of the tournament a 3.62 lb. spot.

For the second half, Tim threw a spinnerbait and a jig on rocky points in the main lake. Tim only came in with four fish in the second half, but said he lost 4 big ones on the jig. Tim's second half weight was 7.64 giving him 17.47 lbs. and enough for the win!

Second place went to Bill Kunz. Bill started down near McClure Point but wasn't able to get on the point itself, so he had to settle for scraps farther down the wall. Bill fished three smaller points on the wall with deep water nearby.

He started off throwing a Keitech swimbait on his custom swimbait head. He said he caught three keepers in the first thirty minutes and lost a fourth swinging it in the boat and watching it bounce off the deck and back into the water. Bill left that area and headed to the wall across from the marina just before dark. Bill picked up a Bill Norman shad colored crankbait and was able to catch his last two keepers to fill out his limit. After dark it got tough, but he caught a few more on the crank and was able to cull twice throwing a Pro Worms 6" purple death on a drop shot. Bill's first half limit weighed 8.08 lbs. and had him sitting in second place.

For the second half, Bill started at the Marina wall and worked all the way down to Barrett South catching three keepers on a black Picasso spinnerbait. At about 2:30 he moved to an island top across from Temperance. Bill utilized his drop shot to catch roughly ten keepers off the island top. At dawn Bill tried to get on McClure Point, but Ken Eddy was camped out there, so he had to fish one of the smaller points down the wall he got bit earlier in the first half. Bill caught another limit on the drop shot that culled one and then picked up a spook and caught two more fish that culled for him.

Bill's second half weight was 9.36 lbs. giving him a grand total of 17.44 lbs. but not enough to beat out Tim Turner.

Page 3 of 8

Third place went to Paul Shaffer who only brought in a total of eight fish (four each half) for a grand total of 14.21 lbs. enough for third place and a crisp one-dollar bill from Bill Rowles Sr.

Paul said he fished Arnold Bay and Piney most of the tournament. He caught all of his fish on a drop shot in 5-10 feet of water. Before dark Paul said he threw a 6" Pro Gold worm and after dark he threw a 6" Pro Morning Dawn with the majority of his fish coming after dark on the morning dawn.

Paul didn't get his picture taken at the weigh-in but he was spotted earlier in the evening in Arnold Bay sacking them up!.

Fourth place went to Kyle Reynolds who brought in a total of seven fish for both halves for a total weight of 13.51 lbs. Kyle also brought in a 3.64 lb. largemouth which edged out Tim Turner for big fish honors.

Kyle said he fished mostly in the main lake and caught his fish on a jerkbait before the sun went down and then a jig after dark. He also caught one nice keeper on a black chatterbait.

Page **4** of **8**

Rounding out the top 5 was Justin Barton. Justin said he focused on outside current points in the river and creek channels. The majority of his fish were caught using a walking type topwater before dark and early in the morning. After dark he resorted to a Texas rig which caught a few but those bites were far and few between.

I did not get a picture of Justin at weigh-in, but he did catch this beautiful 5.7 lb. largemouth on a topwater during practice.

TOURNAMENT TOTALS:

Total Anglers: 25
Total Fish Weighed-in: 126

Average Fish Caught/Angler: 5 fish (Two halves Combined)

Average Fish Weight: 1.62 lbs. Biggest Bass: 3.64 lbs.

As you can see from the above numbers the bite was super tough. Out of a possible 10 fish per angler that could be weighed in the average per angler was only 5 fish. Only one angler brought in two five fish limits.

McCLURE NIGHT RESULTS (DUAL WEIGH-IN)
